UPGRADE YOUR PC WITH

MICROSTORAGE

MICROSTORAGE MOBILE DRIVE

The Mobile Drive by MicroStorage (2GB) costs about the same as a 512MB flash drive and weighs about 40g. It fits in the palm of your hand, but packs enough memory to store more than 600 MP3 songs, over 350 photos or about 30 minutes of MP4 video! The 2GB and 4GB Mobile Drive will revolutionize the way you store, transfer and transport files. No more piles of floppy disks or huge portable hard drives that always seem to turn up missing or get in the way. The Mobile Drive provides fast, reliable, cost-effective storage for any device with a USB port. The Mobile Drive supports Windows and Macintosh. No drivers are required.

Product specifications:

- 2GB & 4GB high-capacity, high-performance USB Portable Pen Drive
- Industry standard USB 2.0 interface
- Reliable storage performance for any device with a USB port, including PCs, digital media players, handheld computers & other portable devices
- Low power consumption
- 1500G shock resistance rating
- Ultra lightweight & compact (weight 16 grams)
- Media type: Glass
- Rotational speed: 4,200 RPM
- Media transfer rate: 52.4-99.6 Mbits/sec
- Transfer rate: 3.3-6.5 Mbytes/sec
- Seek time (avg.): 10 msec
- Error rate (unrecoverable): 1 per bit
- Head load/unload cycles: 300,000
- Voltage: 3.3/5.0 VDC +/- 5% Auto Detect
- Current (write): 275 mA
- Current (idle): 18 mA
- Dimensions: 67 X 49.4 X 11 mm
- Temperature: 0° to 65° C operating
- Relative humidity: 8 to 90% operating
- Shock (half sine): 175G (2ms) operating
- Vibration (swept sine): 1G 0-pk (5-500 Hz) operating
